

**Need Help Selecting A Product? Contact One Of Our Specialists!**

Our job is to keep you moving - for Wood Mill applications such as pneumatics to hydraulics to dust collection and fire protection we have you covered with our specialized knowledge and top notch service for hose, tubing, ducting, fittings, valves, gauges and more. We offer the widest range and deepest selection of hose products and services in Western Canada, large inventories and competitive prices backed up by a team of customer service focused product specialists. Check us out at [new-line.com](http://new-line.com), or call, email or stop in to speak to one of our team members about how we can help!

**A2005**

**Black Ribbed Rubber Water Discharge / Layflat Hose**

Our A2005 can be used as a premium layflat water discharge hose. It combines the light, compact features of PVC with the heat and abrasion resistance of rubber.

**A9715**

**White Untreated / Non-Coated Single Jacket Fire Brigade**

Our A9715 is an entry price point, non-treated single jacket forestry hose designed for standby, one time use only.

**A9720**

**Yellow Treated Single Jacket Coated Fire Brigade**

Our A9720 is designed as a light duty, cost effective open ended discharge hose or for standby forestry fire protection.

**A9750**

**Red Ribbed Rubber FM & UL Approved Armtex Fire Hose**

Our A9750 is a red, nitrile rubber UL listed fire hose that is used for general firefighting service. Its tough, ribbed cover reduces dragging friction and resists oil, heavy abrasion, and weathering.

**A9770**

**White Double Jacket Brigade Fire (Urethane Lining / Tube)**

Our A9770 is a double jacket textile fire hose that is similar in construction to our standard A9720 single jacket, but this hose has an extra jacket for added resistance to punctures or external wear.

**A9775**

**Yellow Newcap Double Jacket (Urethane Lining / Tube)**

Our A9775 is a hi-visibility, low-temp, double jacket fabric hose. If you are looking for a long lasting, high quality industrial washdown/fire attack hose at a reasonable price, our A9775 is the product for you.

## Hydrant Adapters

The most common fire hose threads in BC are: 1" to 2" NPSH (same dimensions as NPSM) and 2-1/2" BAT. Replace "\_\_\_" with size.

**N9602-\_\_-BR:** MNPT x MNPSH Solid  
**N9602-\_\_-FBR:** MNPT x MNH/NST Solid  
**N9602-\_\_-BCTBR:** MNPT x MBAT Solid Hex

**N9604-\_\_-BR:** MNPT x FNPSH Solid  
**N9604-\_\_-FBR:** MNPT x FNH/NST Solid  
**N9604-\_\_-BCTBR:** MNPT x FBAT Solid Hex

**N9615-\_\_-BR:** FNPT x FNPSH Single Swivel  
**N9615-\_\_-FBR:** FNPT x FNH/NST Single Swivel  
**N9615-\_\_-BCTBR:** FNPT x FBAT Solid Hex

We offer swing style fire hose storage reels specifically designed for stand-by fire hose service in buildings or shops. Designed to swing 180° to permit the fire hose to be quickly unrolled. Other sizes are available.

**NFHR-18**  
 1-1/2" Max 75' Capacity (18"H x 6"D x 23"W)

## Hydrant Adapters

Many other specialty valves and "Y" adapters are available.

These are commonly used to control flow on fire hydrants. They are supplied with a speed crank handle, however, optional wheel type handles are available upon request.

**N9790-BCTBR:** 2-1/2" FBAT x MBAT Gate Valve

These are commonly used on interior fire protection stand pipes. Available in 1-1/2" or 2-1/2", as well as a vented version for 1-1/2" (**N9795V-150BR**).

**N9795-150BR:** 1-1/2" FNPT x FNPT Globe Valve

This dual shut-off outlet "Y" valve is supplied in standard red/chrome painted brass. Available in hardcoat aluminum.

**N9730-BCT-150BR:** 2-1/2" FBCT x 1-1/2" MNPT NPSH Brass "Y" w/ Shut Off Valves
