**APPLICATION WARNING:** The products in this catalogue are intended for use by knowledgeable persons having the technical skills necessary to evaluate their suitability for specific applications. Due to the critical nature of these products New-Line recommends testing products prior to field use so the user can determine suitability for specific applications. New-Line does not have control over the number and variety of applications for which a product may be purchased or the conditions under which the product may be used. This catalogue does contain information to allow the user to determine the product acceptability for specific applications, New-Line cannot assume responsibility for performance results due to a wide range of external factors. Failure to follow manufacturer coupling procedures, instructions, and/or product limitations could lead to premature failures resulting in property damage, serious injury or death. Products, specifications, and prices subject to change without notice.

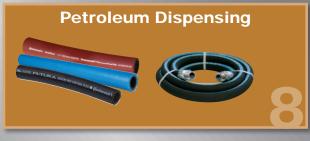

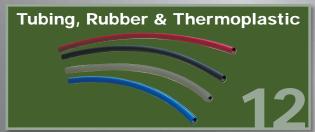

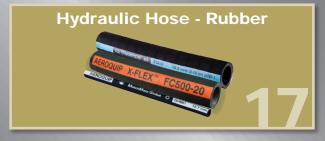

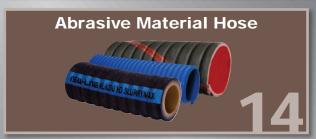

### **Hose Assembly & Fabrication Service**

- Complete In-House Crimping
   & Swaging up to 12" ID
- Specialty Fabrication Including: Tube Bending, Custom Fittings, Adapters & Components

# Hose Safe Testing (& Certification Services)

- Ensuring Industry Compliance with additional level of reliability and safety
- In-House or On-Site service
- Test Pressures up to 50,000 PSI

### **Design & Consulting**

- Application analysis & product design
- OEM Prototyping, one-offs & large production runs
- Liason with various stakeholders from engineering to production

### **C-PAK Custom Kitting & Packaging**

- Custom bagging, boxing & labeling
- Full kitting of hose assemblies, fittings & other components
- Hose assembly tagging, labeling & bundling

#### **OEM Services**

- Specification & design support
- Product & price point options
- Supply chain, installation, routing & rig-out optimization

#### **Flexstock Inventory Management**

- Turnkey inventory setups to on-going inventory support
- Inventory bins, cabinets
   & hose dispensers
- Descriptive product labels with product specs & images

### **On-Site HoseShop Program**

- Available in a variety of sizes
- Logistics & on-going support
- Complete turnkey hydraulic crimper, cut-off machine, racking & storage bins

### SPV Safety Performance Value Program

- Improve safety of equipment & personnel
- Reduce downtime & failures
- Increase value & reduce total costs

#### **Major Project Services**

- Priority service & expedited order processing
- Specialty product sourcing & design
- Project & equipment analysis for replacement part needs

#### TrackAssure RFID Hose Management

- Hose assembly asset tracking system
- RFID Enabled Tags syncs to our Cloud based tracking system
- Track certification maintenance records, reports, alerts, in service dates, life cycles, locations & more
